

Mansi Pandey

Sr. Product Designer

Jaipur | +91-7976002586 | [Portfolio](#) | mansipandey725@gmail.com | [LinkedIn](#)

Senior Product Designer with 4.5+ years of experience designing web and mobile products across AI, enterprise SaaS, data-driven platforms, and digital experiences. Experienced in taking products from research and problem definition through information architecture, user flows, wireframes, high-fidelity UI, prototyping, usability testing, and design handoff.

Strong in simplifying complex workflows into intuitive, accessible, and scalable experiences, with a focus on user needs, business goals, usability, and design consistency. Experienced in working closely with product, engineering, research, analytics, and client stakeholders to drive design decisions and deliver production-ready experiences.

KEY HIGHLIGHTS

- 4.5+ years of experience in **Product Design, UX/UI Design, and interaction design** across web, mobile, enterprise SaaS, AI-powered platforms, and data-driven products.
- Experienced in **end-to-end UX design**, from user research and problem definition to information architecture, user flows, wireframes, high-fidelity UI, interactive prototypes, usability testing, and design handoff.
- Strong product thinking with the ability to balance **user needs, business objectives, technical constraints, usability, accessibility, and time-to-market**.
- Experienced in simplifying complex workflows and information architectures into **intuitive, scalable, and user-friendly experiences**.
- Strong understanding of **responsive design and cross-platform UX** across web and mobile experiences.
- Experienced in **user research, workflow analysis, usability testing, user feedback, and iterative design** to improve product experiences.
- Strong understanding of **design systems, reusable components, interaction patterns, accessibility, and visual consistency** across products and platforms.
- Designed data-rich and complex interfaces, translating business requirements and large datasets into **clear, actionable user experiences**.
- Experienced collaborating with **product managers, engineers, researchers, business stakeholders, clients, and technical teams** throughout the product lifecycle.
- Hands-on experience using **AI-assisted design workflows** for ideation, research synthesis, UX exploration, content iteration, and product problem-solving.
- Strong communication skills with experience presenting **design rationale, prototypes, UX recommendations, and design decisions** to stakeholders.

WORK EXPERIENCE

Celebal Technologies | Jaipur, India

Senior Product Designer | Mar 2022 – Present

- Progressed from Associate UI/UX Designer to Senior Product Designer, owning **end-to-end product design** across AI-powered platforms, enterprise applications, dashboards, websites, and responsive web/mobile experiences.
- Led UX design for a **large-scale multilingual AI and speech technology platform**, designing experiences for diverse user groups across web and mobile platforms.
- Conducted **user research, workflow analysis, requirement discovery, and competitive/market research** to identify user needs, pain points, and opportunities for product improvement.
- Translated research and business requirements into **information architecture, user journeys, user flows, wireframes, high-fidelity interfaces, and interactive prototypes**.
- Designed complex workflows and data-intensive experiences by simplifying information architecture and applying principles of **interaction design, usability, hierarchy, and accessibility**.
- Collaborated closely with **product managers, engineers, researchers, analytics teams, clients, and business stakeholders** to align user needs, business objectives, technical constraints, and delivery timelines.

- Led the design of responsive web and mobile experiences, ensuring **consistency across screen sizes, platforms, and user journeys**.
- Established and maintained **scalable UI guidelines and design systems**, improving consistency and reusability across products and platforms.
- Redesigned the company website, resulting in a **30% improvement in navigation efficiency** and enhanced overall user engagement.
- Used user feedback, stakeholder input, usability considerations, and product requirements to **iterate and refine designs throughout the product lifecycle**.
- Designed Power BI dashboards and data visualization experiences, transforming complex datasets and business KPIs into **clear, actionable, and easy-to-understand interfaces**.
- Applied accessibility, HCI, responsive design, and usability principles to create **inclusive and accessible digital experiences**.
- Leveraged **AI tools and OpenAI models** to accelerate ideation, explore alternative UX approaches, synthesize information, and improve design workflows.
- Created detailed **design specifications, interaction guidelines, prototypes, and developer handoffs**, collaborating with engineering teams to ensure design fidelity during implementation.
- Presented design concepts, UX rationale, prototypes, and recommendations to clients and cross-functional stakeholders, incorporating feedback into final solutions.
- Managed multiple projects and competing priorities while maintaining **design quality, delivery timelines, and stakeholder alignment**.
- Mentored junior designers and contributed to maintaining **UX quality, design consistency, and reusable design practices** across projects.

Freelance — UI UX Designer

JANUARY 2021 – FEBRUARY 2022

- Designed Website and Webportal for Talk To Toppers
- Worked for Happy Globe
- Videopreneur (Pune)
- Worked in JLF 2019
- Worked with Folk Studio and Xymbolics
- Created posts for Gratstays
- Created post for Vaskco

Tools & SKILLS

Product & UX Design	Enterprise & Data	Design & Collaboration	Tools
• Product Design • UX/UI Design • User Research • User-Centered Design • Information Architecture • User Flows • Wireframing • Interactive Prototyping • Usability Testing	• Enterprise UX • Data-Driven Products • Dashboard Design • Data Visualization • Information Visualization • Power BI • Complex Workflow Design • Design Systems	• Accessibility & HCI • Responsive Design • Cross-Functional Collaboration • Stakeholder Management • Design Handoff • UI Guidelines • Agile Product Development	• Figma • Sketch • Adobe Creative Suite • Adobe XD • Power BI • Framer • Webflow • Jira • Confluence • Notion

EDUCATION

JECRC University, Jaipur — B.Tech in Computer Science (2017 – 2021)

MDS Senior Secondary School, Udaipur – 12 CBSE Board – Year of completion: 2017

MDS Senior Secondary School, Udaipur – 10 CBSE Board – Year of completion: 2015
